

António Guterres

United Nations Secretary-General

"The involvement of private initiative is fundamental in resolving the problems and needs that we as a society must tackle"

Alfonso Dastis

Minister for Foreign Affairs and Cooperation

"It is important for our country to become an international benchmark for globally shared issues, such as road safety"

Henrietta H. Fore

Executive Director, United Nations Children's Fund

"Working together, we shall be much more effective in combating the problems of child safety and mobility, a right that still cannot be fully enjoyed by all the worlds' citizens, and which has a particular impact upon children"

Sergi Loughney

Institutional Relations & CSR Director at Abertis
Director of Abertis Foundation

"For a company like Abertis, road safety is a priority. We promote safe and responsible mobility to improve everyone's quality of life"

Road Safety
Programme

Through its Foundation, Abertis takes a keen interest in the impact of infrastructure on the territory and on people. In this regard, one of its very first areas of action has been road safety, promoting meetings and symposia with experts in the field to share and spread knowledge to help ensure safer mobility.

Road safety has always been part of the DNA of both Abertis and its Foundation.
