

Road Safety Ireland Driver Training Centre of Excellence

Driving for Work - Winter Driver Training - Skid Control

Content:

Using vehicles in a safe controlled environment.

Course instruction includes:

- Driving theory.
- Steering and seating position.
- Enhanced driving skills, covering the latest safety features available including active safety brake, traction and stability control systems.
- Vehicle dynamics (understeer/oversteer).
- Skid pan.
- Winter driving and driving on ice

Focus:

Our 'Driving for Work' Safe Driving Experience aims to build knowledge and awareness to the five key causes of collision fatalities and serious injuries:

1. Speeding
2. Drink/Drug Driving
3. Distraction
4. Seatbelts
5. Driving Tired

This training will take place in our New 2000 sq ft Road Safety Experience Centre and on the track using the very latest in immersive learning techniques, equipment and VR technology. Our course we believe will be insurance industry recommended/approved/ recognised.

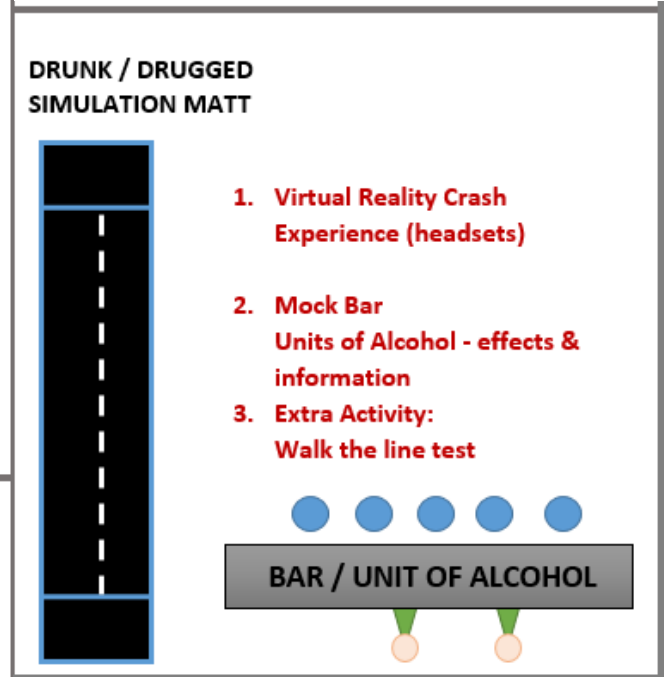

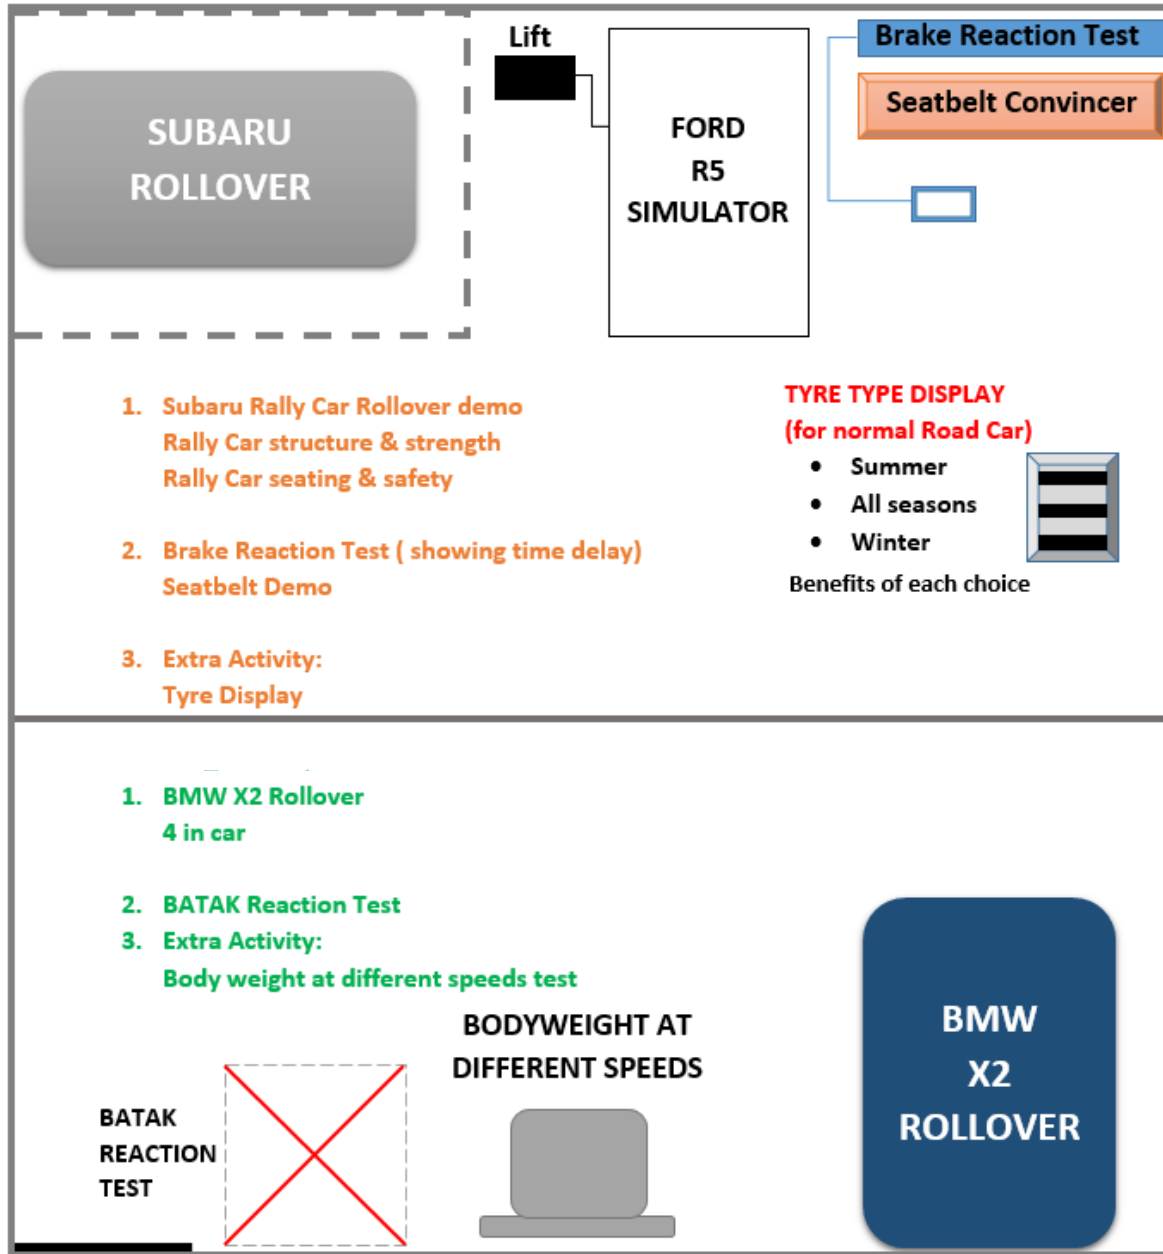

Risk Education 1 - Indoor Road Safety Experience

Risk Education 1 experience is about alcohol, drugs, seat belts and risky behaviour in general.

This education gives you a knowledge into how alcohol, drugs, fatigue and distraction can affect driving ability and how seat belts save lives.

We use practical demonstrations coupled with world leading VR technology and state of the art simulations and equipment.

This is interactive, immersive learning, delivering the highest possible levels of retention of knowledge.

Walk the line

Braking Distances

Rollover Simulator

Risk Education 2:

Driving for Work - Winter Driver Training - Skid Control

Drivers learn advanced driving skills including skid control, emergency avoidance, winter driving and a host of defensive driving techniques.

The risk education for B driving licence comprises of two parts risk education 1 and risk education 2. After you have completed the education, we will provide a certificate of Achievement for your insurance company.

Risk Education 2 is about speed, stopping distances, seat belts, safety at junctions, roundabouts, motorway driving and driving under special/difficult road conditions. This is a practical behind the wheel driver training that makes you aware of the risks and teaches you how to avoid falling into difficult situations and understand the importance of speed.

- ✓ Vehicle Safety check
- ✓ Driver Assessment
- ✓ Instructor Demonstration Drive
- ✓ Classroom & Practical Sessions
- ✓ System of Car Control
- ✓ Vehicle Dynamics
- ✓ Attitude & Concentration
- ✓ Season Driving Problems
- ✓ Skid Correction
- ✓ Mastering Understeer
- ✓ Mastering Oversteer
- ✓ Emergency Brake and Avoidance Techniques
- ✓ Driving on Ice & Snow
- ✓ Aqua Plaining & Fog
- ✓ Safe Parking
- ✓ Dangerous Junctions
- ✓ Roundabouts
- ✓ Motorway Driving
- ✓ Electric Vehicles
- ✓ Securing Loads
- ✓ Tyres
- ✓ Stopping Distances
- ✓ Industry/specific company training available
